	about individual students and can provide support with student programming and is also a part of the gifted screening process. EQAO - Results have not been released by EQAO once they are; they will be sent home. Daily School Route - "Ward 12 Councillor Cassar's motion for our work in Ancaster Elementary Schools has been ratified in Council! This means that the City of Hamilton will be supportive and collaborative in our work together, as we elevate kids' voices in the design of their neighbourhood. Our next step is to have families participate in our Third Spaces Survey. As part of planning routes to school, we would like to understand where play, socializing, meeting up, and other leisure activities occur in the neighbourhood. These activities contribute to a child's connection to their community and their ability to walk to school. We would like to learn how these locations could be improved." Email from DSR Nov 6th, 2025. - Survey to be sent out after School Council meeting and will close the end of December 2025. Parent Reaching Out (PRO) Grant - Ashley Buligan has completed the application which was due Nov 21. We have asked for books that can be used by students' families with their child(ren) to continue/foster a love for reading. The application includes books for students and their families in the Special Education class.
